➤ ADD THE HVP MULTI-SQUARE C15 ON ANY TYPE OF RUBBER BELT

Xonnoz is able **to vulcanize any chosen profile onto any belt**. With this technology you can design the perfect belt for multiple applications. The profiles are not glued on top of the belt but **molded in the top cover**. The belts can run over smaller pulleys and the profiles are **highly resistant to impact**, without breaking or ripping off.

XONNOZ HVP MULTI-SQUARE C15

➤ SHAPE AND POSSIBLE WIDTHS FOR C15

➤ BELTWIDTH POSSIBLE UP TO 2000MM

HVP MULTI-SQUARE C15 P290
HVP MULTI-SQUARE C15 P560
HVP MULTI-SQUARE C15 P825
HVP MULTI-SQUARE C15 P1100
HVP MULTI-SQUARE C15 P1230
HVP MULTI-SQUARE C15 P1635
